House Bill 1291 (AS PASSED HOUSE AND SENATE)
By: Representatives Smith of the 133rd, Williams of the 148th, Wiedower of the 119th, Williamson of the 115th, and Frye of the 118th

A BILL TO BE ENTITLED
AN ACT

To amend Code Section 48-8-3 of the Official Code of Georgia Annotated, relating to exemptions from sales and use tax, so as to revise the terms and extend the sunset date for a sales tax exemption for the sale or lease of computer equipment to be incorporated into facilities of high-technology companies; to extend the sunset and revise certain terms of an exemption for certain high-technology data center equipment; to provide for related matters; to provide for effective dates and applicability; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 48-8-3 of the Official Code of Georgia Annotated, relating to exemptions from sales and use tax, is amended in paragraph (68) by revising subparagraph (G) as follows:

"(G) This paragraph shall stand repealed and reserved by operation of law at the last moment of June 30 December 31, 2023."

SECTION 2.

Said Code section is further amended by revising paragraph (68) as follows:
(A)(i) The sale or lease of computer equipment to be incorporated into a facility or facilities in this state to any high-technology company classified under the 2017 North American Industrial Classification System code 334413, 334614, 511210, 517311, 517312, 517410, 517911, 517919, 518210, 522320, 541330, 541511, 541512, 541513, 541519, 541713, 541715, or 541720, provided that the exemption allowed under this paragraph shall be limited to those purchases or leases made by such a high-technology company for calendar years during which the high-technology company made taxable purchases or leases of at least $15 million worth of such computer equipment where such sale of computer equipment for any calendar year exceeds $15 million or, in the event of a lease of such computer equipment, the fair market value of such leased computer equipment for any calendar year exceeds $15 million.

(ii) Notwithstanding the provisions of division (i) of this subparagraph to the contrary, on and after January 1, 2024, the exemption allowed under this paragraph shall be limited such that each person claiming the exemption allowed by this paragraph shall be subject to paying 10 percent of all taxes imposed by this chapter on the first $15 million of its eligible purchases or leases for which an exemption is claimed under this paragraph.

(B) Any person making a sale or lease of computer equipment to a high-technology company as specified in subparagraph (A) of this paragraph shall collect the tax imposed on the sale by this article unless the purchaser furnishes such seller with a certificate issued by the commissioner certifying that the purchaser is entitled to purchase the computer equipment without paying the tax. As a condition precedent to the issuance of the certificate, the commissioner, at such commissioner's discretion, may require a good and valid bond with a surety company authorized to do business in this state as surety or may require legal securities, in an amount fixed by the commissioner, conditioned upon payment by the purchaser of all taxes due under this
article in the event it should be determined that the sale fails to meet the requirements of this subparagraph.

(C)(i) As used in this paragraph, the term 'computer equipment' means any individual computer or organized assembly of hardware or software, such as including, but not limited to, a server farm, mainframe or midrange computer, mainframe driven high-speed print and mailing devices, and workstations connected to those devices via high bandwidth connectivity such as a local area network, wide area network, or any other data transport technology which performs one of the following functions: storage or management of production data, hosting of production applications, hosting of application systems development activities, or hosting of applications systems testing.

(ii) The term shall not include:

(I) Telephone central office equipment or other voice data transport technology, including any wireline or wireless telecommunication system; or

(II) Equipment with imbedded computer hardware or software which is primarily used for training, product testing, or in a manufacturing process;

(III) Computers or devices issued to employees, which shall include, but not be limited to, smartphones, tablets, wearables, personal computers, and laptops; or

(IV) Prewritten computer software.

(D) Any corporation, partnership, limited liability company, or any other similar entity which qualifies for the exemption and is affiliated in any manner with a nonqualified corporation, partnership, limited liability company, or any other similar entity must conduct at least a majority of its business with entities with which it has no affiliation.

(E) Each high-technology company that has been issued a certificate of exemption pursuant to this paragraph shall report annually to the commissioner a list of the facilities for which all computer equipment exempted by this paragraph during the preceding calendar year was incorporated, as well as the amount of taxes exempted
under this paragraph during the preceding calendar year. Such report shall be filed within 90 days after the end of the calendar year for which the high-technology company utilized a certificate of exemption pursuant to this paragraph and shall be subject to the confidentiality provisions of Code Section 48-2-15. The commissioner shall not issue a certificate of exemption under this paragraph for the calendar year next succeeding the reporting date to any high-technology company that has failed to comply with the reporting required by this subparagraph.

(F) The commissioner shall promulgate such rules and regulations as are necessary to implement the provisions of this paragraph.

(G) This paragraph shall stand repealed and reserved by operation of law at the last moment of June 30, 2023 December 31, 2028.”

SECTION 3.
Said Code section is further amended by revising subparagraph (A), division (v) of subparagraph (G), and subparagraph (H) of paragraph (68.1) as follows:

“(68.1)(A) For the period commencing on July 1, 2018, and ending on December 31, 2028 2031, high-technology data center equipment to be incorporated or used in a high-technology data center that meets the high-technology data center minimum investment threshold and other conditions provided in this paragraph.”

“(v) 'High-technology data center minimum investment threshold' means the creation of 20 new quality jobs and:

(I) For high-technology data centers located in a county in this state having a population greater than 50,000 according to the United States decennial census of 2010 or any future such census, the creation of 25 new quality jobs and $250 million in aggregate expenditures incurred over any consecutive seven-year period between July 1, 2018, and December 31, 2028 2031, on the design and construction
of the high-technology data center and high-technology data center equipment to be
used or incorporated in the high-technology data center;

(II) For high-technology data centers located in a county in this state having a
population greater than 30,000 and less than 50,001 according to the United States
decennial census of 2010 or any future such census, $150 the creation of ten new
quality jobs and $75 million in aggregate expenditures incurred over any
consecutive seven-year period between July 1, 2018, and December 31, 2031,
on the design and construction of the high-technology data center and
high-technology data center equipment to be used or incorporated in the
high-technology data center; and

(III) For high-technology data centers located in a county in this state having a
population less than 30,001 according to the United States decennial census of 2010
or any future such census, $100 the creation of five new quality jobs and $25
million in aggregate expenditures incurred over any consecutive seven-year period
between July 1, 2018, and December 31, 2031, on the design and construction
of the high-technology data center and high-technology data center equipment to be
used or incorporated in the high-technology data center.”

“(H) This paragraph shall stand repealed by operation of law on January 1, 2032.”

SECTION 4.

This Act shall become effective upon its approval by the Governor or upon its becoming law
without such approval; provided, however, that Section 2 of this Act shall become effective
on January 1, 2024, and shall be applicable to transactions occurring on or after such date.

SECTION 5.

All laws and parts of laws in conflict with this Act are repealed.
