BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 2 of Chapter 46 of Title 33 of the Official Code of Georgia Annotated, relating to the prior authorizations of healthcare services, is amended by adding a new Code section to read as follows:

(2) "Ongoing medication therapy" means a clinical and evidence-based treatment that uses
a prescribed medicine to prevent, diagnose, treat, or relieve the symptoms of a chronic
condition and is continuing or expected to continue for at least a year.

(b) Unless otherwise provided in subsection (c) of this Code section or prohibited by state
or federal law, if a healthcare provider receives a prior authorization for a medication
prescribed to a covered person with a chronic condition that requires ongoing medication
therapy, and the provider continues to prescribe the medication, and the medication is used
for a condition that is within the scope of use approved by the United States Food and Drug
Administration or has been proven to be a safe and effective form of treatment for the
patient's specific underlying condition based on clinical practice guidelines that are
developed from peer-reviewed publications, the prior authorization received shall:

(1) Be valid for the lesser of:

(A) One year from the date the healthcare provider receives the prior authorization; or

(D) Medications that are opioid analgesics or benzodiazepines.

(2) Nothing in this Code section prevents the prior authorization of a medication for
more than a year if permissible by the covered person's healthcare plan."
SECTION 2.
