PROFESSIONAL PROGRESSION

FOUNDER & CEO ► MYCRIB 360 ► ATLANTA, GA ► 2016-PRESENT

Serving as the Managing Broker, founded MyCrib 360, a boutique residential Real Estate Brokerage with a vision of service excellence, coupled with innovative listing & consultative solutions, in contrast with traditional brokerages

- Initiated & fostered rapport with property owners, buyers and investors – secured repeat international buyers
- Drafted complex agreements -- agency, myriad of purchase & sale agreement, lease-purchase, and options
- Analyzed market trends and produced detailed CMAs, collaborated with a broad range of designers, contractors and structural engineers for rehab project estimation for investor clients
- Developed purchase & sale pricing strategy through cost-benefit analysis and P&L projections based on renovation costs, holding costs, and closing/legal costs - compiled risk assessment based on market activity & DOM for flips and/or rental investments based on regional supply & demand
- Led successful campaigns for brand awareness through SEO/PPC and traditional marketing
- Developed best practices & processes, authored the brokerage Policies and Procedures per GA Real Estate Law
- Identified and implemented CRM, Documentation, Compliance, and Accounting tools
- Forged relationships with technology & MLS vendors, service providers, mortgage brokers, and closing attorneys

KEY ACCOMPLISHMENTS:

- ✓ Through successful brand awareness campaigns, consultative approach, creative pricing & value proposition built a pipeline of \$15.7M in sales & acquisitions, amassing a network of repeat investors, & luxury clientele with valuations in excess of \$1M
- ✓ Recipient of the “Top Producer Award” among 1100 agents, gross sales of \$2.1M in August 2017 (Independent)
- ✓ Board Member, Atlanta Realtor Association Habitat for Humanity; raised funds, secured sponsors and recruited 40+ volunteers, successfully completed build in November 2016

VICE PRESIDENT, CLIENT OPERATIONS ► STREAMLINE HEALTH ► ATLANTA, GA ► 2014-2016

Hired as the Chief Executive Officer direct report, oversaw Client Operations for the Healthcare IT Software and Service Company with \$28M in revenue. Led PMO, Implementation & Professional Services, Consulting, Account Management, and Client Support Services across 5 Enterprise Software Solutions

- Aligned with cross-functional management and executed five strategic initiatives among Client Centricity, Employee Engagement, Culture of Transparency, Servant Leadership, and Productivity

- Managed four Directors, two Managers, 50+ associates; delivered various SaaS and client-site enterprise solutions across global footprints and ~\$7M operating budget
- Oversaw creation of project revenue forecasts, project schedules, and project resource allocation
- Provided executive governance of client projects across the implementation & professional services organizations, ensuring a regular project reporting cadence with PMs, Account Executives, and Directors
- Partnered with C-suite to define strategic plans and set organizational goals, aiming at delivering best-in-class customer service, increased client satisfaction & retention, revenue growth and profitability
- Supported business operations, M&A integrations, and growth strategies through the delivery of defined plans, organizational goals, objectives, and metrics by Key Performance Indicators (KPIs) and utilization targets
- Managed the Client Services BU to achieve revenue and expense goals by project prioritization, planning & executing revenue generation campaigns, and proper capacity planning of billable and non-billable resources
- Established formal communication channels with product management for feedback & product enhancements

KEY ACCOMPLISHMENTS:

- ✓ Established the first formal PMO, delivered a scalable service organization by integration and restructuring team executions of multiple companies M&As
- ✓ Grew professional services revenue by 14% FY14, and 27% FY15, enabled \$450K in unrealized revenue, operating average 16% under budget, turning the client services organization profitable for the first time in 5 years
- ✓ Achieved six- week Enterprise Content Management solution go-live by implementation process overhaul
- ✓ Produced 21% in services, consulting bookings optimized sales by the first Account Management team accountable for retention and inside sales
- ✓ Led a 40% reduction in delinquent A/R by restoring relationships critical channel partners and enabled new business
- ✓ Undertook customer support, reduced open tickets by 48% in five months; created “best practices” that enabled beneficial relationships with critical stakeholders on significant and influential accounts
- ✓ Executed P&L solutions and strategies across platforms that initiated two significant corporate asset transactions
- ✓ Formed a joint engineering and product management organization; positioned leaders, transformed STRM to Agile operation

FOUNDER & CEO ► SELL BY SWAPS, LLC ► ATLANTA, GA ► 2013-2015

Self-funded the development of a mobile-optimized multi-solution “For Sale by Owner” real estate marketing platform enabling consumers to advertise homes for sale or swap homes with other sellers nationwide based on matching criteria

- Oversaw all business operations - product design & management, business development, finance, and marketing
- Developed 12 month roadmap of functional enhancements post-launch
- Successfully applied social media, SEO/SEM strategies for user adoption

KEY ACCOMPLISHMENTS:

- ✓ Designed a multi-solution real-estate marketing website, successfully beta-launched in March 2014
- ✓ Outsourced product development offshore with 70% cost savings
- ✓ Topped over 250 users nationwide, generated multiple investment & acquisition leads

DIRECTOR, PRODUCT MANAGEMENT ► MEDSEEK ► ATLANTA, GA ► 2011-2013

Managed a \$2M operating budget and a team of 14 Product Managers, Product Analysts, and Developers reporting to the Chief Technology Officer. Delivered product management direction for the Healthcare IT Software and Services Company

- Outlined well-defined patient portal roadmaps, executed functional gap analysis on de-coupled integration/content management platform; created actionable strategies for course correction
- Generated and sustained product enhancements backlogs through multiple collaborations across business unit; established priorities, future releases, and refined requirements
- Determined customers' needs by directing the research needed to obtain market information. Negotiated contracts and worked with internal legal colleagues to establish appropriate regulatory approaches
- Ran beta and pilot programs with select customer development partners for early-stage product innovations. Achieved successful product launches through product lifecycle partnerships with Client Operations
- Presented due diligence results on strategic partnerships, vendor integrations, system interoperability; led market research, competitive analysis, and pricing strategy efforts

- Engaged Sales and Client Operation organizations, delivered new product features and enhancements initiatives
- Communicated product strategy to customers, partners, and industry forums
- Prepared short-term and long-term product sales forecasts and special reports and analyses

KEY ACCOMPLISHMENTS:

- ✓ Executed an organizational transformation focused on the "product," metrics-driven which produced over 50% increase promptness with project timeline completions
- ✓ Shaped electronic healthcare data compliant integrations and content management platform to "meaningful use," leveraged industry standards for HL7, HITSP CCD/CDA, IHE PIX/PDQ, XDR/XDS; created seamless user experiences across multiple solutions
- ✓ Headed efforts with EHR, EMR and HIE vendors such as Cerner, NextGen, Kryptiq, GE, Allscripts, and dbMotion, successfully developed API and Web Service integrations
- ✓ Implemented open source Integration and EMPI solutions that led to savings in excess of \$400K

DIRECTOR, IMPLEMENTATIONS ► NUANCE COMMUNICATIONS ► ATLANTA, GA ► 2010-2011

Oversaw a \$3.3M budget and led a sizeable team over 50; 30+ onshore implementation resources and 20 offshore full-time and contract employees. The collaborative connection between corporate leadership and over 70 regional Vice Presidents and Directors in the transcription clinical documentation business, Transcend Services acquired by Nuance Communications

- Administered full project implementations through defined project scopes and detailed plans
- Collaborated with Sales to secure new business, led engagements outlined requirements, delivered SLAs and SOWS; ensure timely delivery and client satisfaction
- Implemented repeatable processes to ensure maximum efficiency and project profitability
- Facilitated working sessions & project inefficiencies; teamed across functions and created corrective action strategies
- Mitigated project risks through proper issue escalation and resolution processes, and a thorough grasp of project downstream impacts; enabled successful executions

KEY ACCOMPLISHMENTS:

- ✓ Restructured the implementation organization, and integrated resources from several mergers
- ✓ Delivered the first PMO defined and enforced implementation "best practices" and processes; enabled project dashboards that resulted in actual statuses and reporting
- ✓ Facilitated cross-functional training which saved \$280K by eliminating contractor dependency
- ✓ Established the first companywide \$150/hour billable rate for PFS services and/or product enhancements, generating revenue in excess of \$50K in 6 months

DIRECTOR, INTEGRATION SERVICES ► DOCUSYS ► ATLANTA, GA ► 2008-2010

Oversaw deployment of Anesthesia Information Management Systems (AIMS), training of end users, managed the interoperability initiatives, built industry-first interfaces & adopted open-source Mirth Connect to enhance integration capabilities, while eliminating over \$200K in annual enterprise integration suite license fees

SR. CONSULTANT ► SAIC & NORTHROP GRUMMAN ► ATLANTA, GA ► 2006-2008

Led design & development of the pilot data exchange platform for CDC's National Syndromic Surveillance Program (NSSP) BioSense for collecting & aggregating clinical data related to unusual levels of illness from ERs nationally for early detection and mitigation of potential disease outbreaks; led the design of CDC's Countermeasure Inventory Tracking (CIT)

PROJECT MANAGER ► MEDQUIST ► ATLANTA, GA ► 2002-2006

Managed deployment and end-user training of enterprise SaaS transcription solutions for hospital HIM departments, interfacing to EMR, EHR, PACS and LIS systems; deployed company's largest client with \$2.5M+ annual revenue

SR. PROGRAMMER ► LABCORP ► NASHVILLE, TN ► 2001-2002

Created EDI, HL7, HTML & Flat Files using MLLP, (S)FTP, & ODBC connections, leveraging Cloverleaf Integration Suite

HEALTH INFORMATION ANALYST ► VANDERBILT UNIVERSITY ► NASHVILLE, TN ► 1999-2001

Entry-level IT, desktop and interface monitoring and support

November 18, 2019

The Honorable Brian Kemp
Governor of the State of Georgia
206 Washington Street
Atlanta, GA 30334

Submitted Via Public Application Portal

Dear Governor Kemp,

I respectfully submit for your consideration this application to serve as the next United States Senator from the great state of Georgia.

I have long considered how I can give back to our country through public service. Please find attached a summary of my business and life experience that I believe qualifies me to serve effectively in this important position.

From working on the family farm to creating jobs and opportunity in the business world, I have been blessed to live the American Dream. I am offering myself to serve hardworking Georgians as a political outsider in the United States Senate to protect that dream for everyone.

It is important – now more than ever before – to have leaders with significant life and business experience outside of politics representing Georgia families in Washington, D.C. Politicians with radical agendas threaten to undermine and destroy all that has made this country the shining beacon of liberty and opportunity in the world. If selected, I will be a new, common sense voice for hardworking Georgians and all Americans who believe in freedom, hard work, and opportunity for all.

If chosen, I will stand with President Trump, Senator David Perdue, and you to Keep America Great. Together, we will grow jobs, strengthen the border, shutdown drug cartels and human traffickers, lower healthcare costs, and protect our national interests – at home and abroad.

I will champion our farmers and Georgia's oldest and largest industry – agriculture. I will protect our military installations and the communities they support. Most importantly, I will be a steadfast partner with you to put hardworking Georgians – not the status quo or the special interests – first.

Governor, thank you for your service and all you are doing to keep our state safe and strong. I humbly ask for the opportunity to serve and build on the efforts to move our great state and country forward.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kelly L. Loeffler".

Kelly L. Loeffler

KELLY L. LOEFFLER

Business and civic leader. Lifelong Republican. 2010 Georgia Victory Finance co-chair, 2012 Georgia Presidential Elector, 2019 Presidential delegate to FIFA Women's World Cup. Grew up working on family corn and soybean farm, 4-H member, waitress in high school and college.

Education

Bachelors of Science in Systems Engineering

United States Military Academy - West Point, NY
1994

CHARLES W. FOLEY II

◆ Hull, Georgia 30646 ◆

SUMMARY OF QUALIFICATIONS

Proven success improving operations and establishing standards in a poultry environment. Extensive background planning, directing, and organizing programs designed to meet and exceed corporate objectives. Experienced in training, motivating and developing other employees. Solid track record of consistently exceeding corporate goals through effective inventory management, GMP implementation, and effective 5S programs. Excellent time management skills and able to work with minimal supervision.

- Experienced collecting, preparing and evaluating research samples
- Skilled at maintain accurate records of experimental data
- Able to identify unexpected results and initiate action to resolve issues

PROFESSIONAL EXPERIENCE

USDA ARS, NATIONAL POULTRY RESEARCH CENTER – Athens, Georgia **MAY 2019 – present** ***Animal Caretaker***

Chosen to accomplish all requirements as established for the planning and production of eggs and poultry needed for research purposes. Provides feed to animals and terminate poultry using accepted practices. Assists in setting eggs, maintaining incubation equipment at proper temperature and humidity settings, and pulling hatches as needed. Certified to operate forklift. Follows strict biosecurity plans.

- Appointed to IACUC (US National Poultry Research Center Institutional Animal Care & Use Committee) to represent USDA interests and help insure the highest standard of animal care.

PURINA – Hartwell, Georgia ***Production Operator***

February 2019 – May 2019

Hired to learn operations of new production plant (still under construction).

ALEXION BIOPHARMA – Athens, Georgia

2000 – 2017

R&D Hatchery Supervisor/Incubation Lead Tech

2002 – 2017

Oversaw hatchery operations and flock regeneration for innovative biotechnology research company. Implemented 5S program, collected research data, planned flock growth strategies, and organized the collection, storage and incubation of fertilized eggs.

- Implemented GMP procedures designed to ensure consistency and minimize risk exposure of contamination of Kanuma (innovative new drug).
- Established all SOPs for hatchery operations, ensuring efficient and quality results of future operations.
- Utilized problem-solving experience to identify deficiencies in process methods and implement solutions, resulting in significant increases in fertilization rates.
- Exceeded hatch rate goals by carefully analyzing existing procedures, recognizing areas needing improvements, and implementing new processes.
- Improved long-term viability of operations through effective implementation of biosecurity standards and cleanliness processes.
- Organized and analyzed precise data on flock of 14,000+ chickens through use of wing bands and detailed record keeping.

Farm Foreman

2001 – 2002

Promoted to direct all daily operations and supervise farm staff. Ensured experimental poultry receive proper care by training farm personnel in proper procedures of vaccinations and pest control. Conducted

CHARLES W. FOLEY II

Hull, Georgia 30646 ♦

performance evaluations of employees and recruited new personnel when needed. Coordinated with lab personnel to determine breeding schedules for experimental birds. Tracked all set eggs, hatch chicks, wing band numbers, and flock progress in computer databases. Assisted in experimental procedures by providing blood and semen samples from targeted birds. Attended research meetings to keep informed of all current experiments and anticipate flock requirements. Acquired and maintained adequate farm supplies needed for smooth operations.

- Ensured regulatory compliance by observing and complying with USDA and university guidelines regarding care and handling of birds.
- Maintained operational consistency by preparing and posting standard operating procedures for farm operations.

Senior Poultry Caretaker

2000 – 2001

Chosen to provide daily animal care and operate poultry research farm. Accountable to maintain high cleanliness standards for accurate research opportunities. Daily responsibilities included feeding, caring, and artificially inseminating chickens for detailed research projects. Challenged to evaluate and find solutions to everyday operational procedures.

- Effectively supported scientific experiments by incubating and hatching eggs by specific request, and collecting egg and blood samples.
- Recorded research data and reporting success/fail rates to scientists on a regular basis.

SAM'S CLUB – Bogart, Georgia

1993 – 2000

Stock/Night Shift Supervisor

Recruited to maintain quality standards for a mass merchant member-only warehouse. Provided exceptional leadership skills by managing the freezer/cooler department and maximizing efficiency of product replacement. Established practical departmental procedures that increased workflow and reduced stress.

- Preserved high quality standards by consistently maintaining company production levels.
- Chosen twice to be “Partner of the Month”, reflecting exceptional customer service skills and company loyalty.

CLEMSON UNIVERSITY DAIRY FARMS – Clemson, South Carolina

1988 –1991

Agricultural Aide III

Employed to conduct research for several projects, including two fat studies and bovine somatotropin research for American Cyanamid.

EDUCATION

CLEMSON UNIVERSITY – Clemson, South Carolina

Poultry Science, Co-editor Brooder Newsletter

COLUMBIA COLLEGE – Columbia, Missouri

Bachelor of Art Degree in Painting and Drawing

David Lee Moretz. Sr.

Augusta, Georgia 30904

My years of service with former Congressman Doug Barnard, Jr. (10th District, Ga) provided an excellent training platform and service background to fulfill needs of Georgians needing a representative in the U.S. Senate who will service and represent their needs in our Nation's capital. The diversity of needs met and problems resolved for the constituency of the district during my tenure is forever imprinted in my DNA.

The following are all reasons, but certainly not an exhaustive list, I'm submitting my name for consideration: help correct legislatively current and potential future problems in the State and nation to meet current and future challenges; to help create both immediate and future opportunities for our citizens; initiate and be part of positive legislative efforts to enhance the quality of life in Georgia, the United States and the world; to not sit idly by and allow things to happen without trying—just my making calls and writing letters is not enough. The assistance I provided to Veterans and farmers in the district is forever one of my greatest sobering achievements as well as assisting small business owners with their challenges with the federal bureaucracy. Assisting communities with their applications for federal funding was critical to a community. There were many opportunities to resolve issues and each one was as important as the next. Along with my efforts, the entire congressional staff took great pride in our work for the Congressman assisting those in the district with the challenges they were having with federal agencies. Now it is my time to be in a different role but with the same outlook.

There are multiple issues of interest to me, to all Georgians and all citizens. Here are few: Agriculture—sustaining the family farm; developing national policies for enhancing the growth of the industrial hemp production; Veterans—ensuring and increasing the commitments to help, treat, and care for them; Health care—getting a grip on costs and making health care affordable to all and enhancing national guidelines for medicinal marijuana; Military infrastructure—maintaining and growing missions that affect our communities; Cyber and all the benefits of its growth in the area; Additionally, getting our industrial policy back on track to produce products in the US, thereby saving and creating jobs here versus sending them abroad; and the most recent hot topic affecting my home community—the saving of the Savannah River Lock and Dam and the need for proper and interested representation in the Senate...this is vital to saving the Lock and Dam.

You have hundreds of Georgians who love our country to choose from for this very responsible position. Your favorable consideration is appreciated. Thank you for your time.

WORK EXPERIENCE

County Commissioner District 3, Candler County Georgia

2013–Current

Duties include attending regular and called meetings. To work with other commissioners and staff to solve problems in the county and to make a budget each year. We still pray before every meeting and recite the *Pledge of Allegiance*.

Robinson Rentals Owner/Operator

2002–Current

I have a rental business and work all facets of renting housing units to perspective renters. I am also a state certified septic system installer.

Donaldson Surveys Party Chief/Draftsman

1983–2002

Began work as a manual draftsman and later drew plats on the computer. I also learned all facets of land surveying from searching courthouse records for information needed, setting up boundary surveys, topographic surveys and doing field calculations as needed with data collector.

THE REASON I FEEL I WOULD BE A PERFECT CANDIDATE TO FEEL THE REMAINDER OF JOHNNY ISAKSON'S SENATE SEAT

I am from a small Bible-belt community where we still believe in God, the Christian church, the right to bear arms for hunting and to defend ourselves as well as the right to life. My father was a local general practitioner medical doctor for nearly fifty years and my mother was the FIRST AND ONLY woman Mayor of Metter. It will give me a great honor to vote with President Trump's agenda and even though for a one-year experience it would be my life-time dream of working and trying to improve the Washington D.C. establishment. Please consider me for this position.

Gary R. Denning

Marietta, GA 30068

Harvey K. Persons, III

Acworth, Georgia 30101

Biographical sketch for: Harvey K. Persons, III

Harvey Persons grew up in Waycross, GA where he graduated from Waycross High School in 1966. As a young man, he was very involved with athletics as well as the Boy Scouts. He studied at North Georgia Military College, DeKalb Junior College and Georgia State University where he majored in Business. He served in the Military and received his honorable discharge as Specialist E-5 with the US Army in 1970, during the Vietnam War conflict.

Harvey Persons started his community service as a participant in the Douglas County Republican Party volunteering in many capacities. He has served the Local, State and National Republican party during his 35-year history of helping to promote the Republican agenda in our country. During this time, he has served in many capacities such as Precinct Captain, Douglas County Party Vice-Chairman (25years), Douglas County Party Chairman (3 different terms), 13th. District Vice-Chairman and State Party committee. He has Chaired three County conventions and two District conventions while serving as Parliamentarian during several County conventions. He has worked on multiple campaigns and helped elect numerous Republicans at the local, state and national levels.

Harvey Persons is a retired businessman with over 40 years of business experience. During his business career, he received many Business and Sales Achievement awards. He served on the Douglasville City Council for almost 7 years beginning in 1989 and held positions as Mayor Pro Tem, Chairman of the Public Safety Committee, a member of the Finance Committee and the Chairman of the Personnel- Committee. Additionally, he chaired the City of Douglasville's first Planning & Zoning Board for 5 years. He was on the Douglas County Planning and Zoning Board for seven years. 4 of those years as Vice-Chairman; before becoming Mayor of the City of Douglasville in January of 2012 - 2015. He served on the board of the Douglasville Water & Sewer Authority (WSA), the Douglas County Development Authority (DCDA), the City of Douglasville Development Authority (CDDA), the Cobb & Douglas Board of Health (CDPH), the Atlanta Regional Commission (ARC) where he served on the Transportation Committee (TAQC), and served on the Executive Board for the Metropolitan Atlanta Mayor's Association (MAMA) as well as the Metro Arts & Culture Committee (MACC). He also served on the board for the Georgia Academy of Economic Development (GAED) as the Georgia Municipal Association representative. He was appointed President of GMA District 3 – West, on GMA's Board of Directors, board member to GMA's Legislative Policy Council and also served on Georgia Municipal Association's Member Services Task Force.

In June 2011 he was appointed to the Department of Labor's Board of Review (is currently and has been serving as Chairman for the past three years) by Governor Nathan Deal, and then in July 2013 was appointed by Governor Deal to the Georgia Commission for Service and Volunteerism.

His leadership and dedication to service in his community that he is most proud of extends to his role as Sunday School Teacher for over 38 years and he is currently serving in that capacity at his home church of Kennesaw Baptist Church in Acworth, Georgia. He has also served as a deacon and in various other capacities in his local church and is currently serving on the Church School Board, finance Committee and Advisory Board to the Pastor at his current home church. Harvey Persons has also served on many community boards including Habitat for Humanity, Council for Battered Women and worked as a mentor through the Douglas County Mentor Program and was one of the original founding board members of the Douglas County Community Character Coalition where he served as Vice-Chairman for 10 years. He and his wife of over 40 years, Sherrie S. Persons, lived in Douglasville, Georgia for 40 years and recently purchased a new home in Kennesaw, Georgia, where they now currently reside. They have 3 adult children and 8 grandchildren.

After actively serving and providing leadership in his community and state for over 40 years as a public servant, he looks forward to many more years of service and leadership to his God, family, country, community and fellow man.

Harvey Persons would be humbled and honored to be appointed by the Honorable Governor Brian P. Kemp to fill the Georgia U. S Senate seat following Senator Johnny Isakson's retirement in December and serve as Georgia's next United States Senator.

Jessica Redding is an experienced Management, Technology, Financial, Negotiation, Dependency and Change Management Consultant having delivered large programs across industries for small businesses and Fortune 100 companies. Her scope of successful work includes leading C-level team to plan and execute a five-year, \$7.5 Billion global technology and operations transformation requiring intricate global negotiations and communications with domestic and international governments as well as regulatory agencies. She has developed a broad skillset for leading critical business operations across varied business lines, countries, departments, and jurisdictions.

Jessica spent several years in asset management for ultra-high net worth clients, managing \$2.2 Billion in assets and building strong client relationships across the Southeast while based in Atlanta and the Northeast while based in New York City.

Her diverse professional portfolio, along with her steadfast character and work ethic, has earned her a reputation as practical, hard-working, radically thoughtful, and superb problem solver. Jessica is highly motivated to deliver top results. She is lauded for her ability to find commonality, tact, credibility, dedication, and empathy. She is highly perceptive and effective at collaboration with persons with diverse interests. Her approachability, empathy, and adaptability have made her a senior go-to resource to solve complicated strategic, tactical, financial, and regulatory conflicts.

Raised in Fort Valley and Macon, Georgia, Jessica experienced both the financial and life balance issues associated with being raised by a single mother, while also thriving in a large family village of public educators, farmers, and government servants. She learned early the importance of legal issues as she grew up with a law professor mother and the importance of public service from her broader set of relatives who served as a U.S. Congressman, Chief of Staff to Senator Sam Nunn, multiple Georgia State Senators, a current Georgia State Representative, a current District Director for the Board of the Georgia Farm Bureau, and a Federal Judge for the Northern District of Georgia, who previously served as a judge on both the Superior Court and Georgia Court of Appeals.

Jessica earned a Bachelor of Science with honors from the Georgia Institute of Technology in Industrial & Systems Engineering, where she served as a leader in numerous campus organizations and created a innovative program for the Alumni Association to prepare seniors for life after graduation. Jessica also holds a Master of Business Administration from the Tuck School of Business at Dartmouth College. She continues to serve Dartmouth as a recruiting representative, Tuck admissions affiliate, alumni interviewer, MBA program speaker, and host for on and off-campus events.

Her long and impactful service in volunteer organizations has also been applauded. Along with recruiting veterans through VOWS (Veterans on Wall Street) and serving numerous community outreach education organizations, Jessica recently chaired the Steps to Success Committee dedicated to job skills training and financial literacy education for clients from communities facing socioeconomic challenges. During her leadership tenure, the organization's volunteer base expanded by 25%, and new community partners were added. This resulted in Steps to Success being named "Committee of the Year." Also, while in New York City, Jessica was one of five recipients out of 2600 young professional women awarded the selection of "Woman to Watch" – who are described in this way: "Women to Watch motivate. They are mentors and leaders. They give their all, go the extra mile, think outside the box and step up to the plate. Beyond the clichés, they make experiences meaningful for others, accept less-than-glamorous jobs cheerfully and lead by example (whether serving in traditional leadership positions or not). Women to Watch bring passion, charisma, good humor and strength of character to their roles and activities."

Since leaving the private sector, Jessica has continued working with individuals across a variety of generations and experience levels but can now focus on helping others. She continues to champion driving change through public service and making Georgia, the United States, and the world all better for future generations.

United States

November 17, 2019

Kellie Lavoie is a dedicated Georgian that has spent her life serving others. First and foremost, she is a mother to her three grown children and a grandmother to her wonderful grandson, [REDACTED]. By trait Kellie is a Nurse and has been in the medical field since 2008.

As an ICU and ER Nurse Kellie cared for those who were most in need. She invested in people that she had never met, and without question, saved lives. As Kellie reflected on her career, and considered her family, she decided to take a step back and find a more administrative role. Kellie accepted an offer from the Department of Community Health as a Nurse Surveyor. Kellie took the position and with full force succeeded in the role. She recently accepted the position of the Acute Care Training Coordinator and enjoys helping other surveyors become an advocate for Georgians across the state.

As a Nurse Surveyor Kellie traveled the state of Georgia to investigate complaints and claims on issues such as abuse, neglect, provision of care, and death. She would also inspect treatment facilities to make sure that they were compliant with the State and Federal Regulations regarding patient care. Kellie took on a similar role with the Georgia Department of Behavioral Health and Developmental Disabilities and investigated claims of abuse and neglect. She learned valuable skills in both roles and had to actively interview and speak with people of all walks of life.

Kellie is passionate about nursing and is not looking to become a career politician. She is looking to initiate change and add value to the State. She has no issue with change, however, Kellie believes we have lost so much as a country and have strayed away from some important conservative values.

Taxes in our country and state are a hot button issue and are something Kellie feels strongly about. She believes that we need to become more responsible about our spending and consider where those “dollars” come from. They come from our family, friends, neighbors and fellow Georgians. Kellie respects Governor Kemp’s ability to represent the “the everyday citizen” and believes that people should be represented by more leaders with this outlook. Not career politicians, but real people who have not lost their way in the dark political arena that Washington represents most often.

Kellie believes in the idea of the “the everyday citizen” and is one. She pays her bills and lives a very normal life. Not rich, not poor, but middle class. She has overcome the ups and downs that life provides and enjoys her life with her Husband and family. She has been a mother, a nontraditional college student, and an upstanding citizen. The one thing that set her apart is that Kellie is not for sale. She has strong ethics, the ability to talk to all types of people, and the mindset to hear all sides before coming to a decision.

Kellie cares for Georgia and its people and is excited about the opportunity to represent her own. Not as a career politician but as a regular Georgian who understands it’s the people that make this state great!

Platform Information:

- **Safeguarding the Pledge of Allegiance in Georgia Schools**

Georgians need to make sure that the schools across this great state are promoting pride in their country and safeguarding the practice of reciting the Pledge of Allegiance. There is a growing movement to instill in our youth that the concept of words and phrases such as patriotism, devotion to country, and national pride are the words of extremists. Our children need to know the great history of our country and the sacrifice that was made to make us a country unlike any other.

- **Protecting Georgian's Tax Dollars**

We need to set our State apart by being a Georgia that responsibly values the tax dollars of hard-working Georgians. Our citizens acutely feel the financial pain of taxation, and as such, we should acutely feel the responsibility when we allocate their tax dollars. We need to remember that those dollars represent time away from their homes and loved ones. They represent hours of hard work.

- **Immigration**

We need to ensure that Georgia does not become a sanctuary state for illegal aliens. Illegal immigration impacts the economy and safety of all Georgians. We are a country of laws, and as elected official we need to be unwavering when ensuring the law of the land is upheld. That includes assisting the Federal government in enforcing our immigration laws.

- **Second Amendment Rights**

We need to ensure that the rights of Georgians are upheld. Currently, the Second Amendment in this country is under attack. If gun rights are taken away or restricted, our personal rights are then taken away or restricted. The progressive left is pushing for a gun control agenda that leaves only the government in control of guns, thereby stripping Americans of their rights. By law, felons are not allowed to own guns. Criminals wanting to commit crimes do not buy guns legally. Instead of looking for ways to repeal and replace the Second Amendment, thereby, removing the guns from the hands of law-abiding citizens, we need to address the cultural sickness that has befallen this country. This can only be achieved on a local, state level.

- **Religious Freedom for All Religions**

Additionally, we need to protect the rights of Georgians to practice their faith openly and without fear of retribution. Christian business owners have found themselves faced with aggressive hostility because of their faith-based convictions. Christian business owners are now being targeted solely because of their faith. This is a blatant attempt to infringe on their First Amendment rights. It is imperative that while protecting the right of the LGBT community, we remain cognizant of rights of those within the Christian community.

- **Advocate for the Innocent and Vulnerable**

Finally, as Georgians, we need to protect the rights of the most innocent and vulnerable. Georgia and Georgians need to continue to lead the way in recognizing the importance of life. We need to be voice for those that cannot speak from themselves. The progressive left would have people believe that an unborn child is not a person. Georgians need to send a clear message that our values cannot and will not be influenced by Hollywood or any other outside entity.

SUMMARY

I have over 30 years in management. For the last 15 years I have been employed by a global Fortune 500 transportation company. I began my career with this company as a rental agent and moved up to the level of service manager overseeing the repair facilities of several locations. My first experience in management was in the field of food service for over 20 years. Thru these work experiences I have gained invaluable knowledge in workflow, budgeting, customer service, labor and human resource requirements among other skills. I look forward to using these skills with my next employer.

SKILLS

- Operations management
- Client-focused
- Computer proficient
- Reports generation and analysis
- File/records maintenance
- Training and development
- Quick learner
- Microsoft Office
- Customer Needs Assessment
- Creative Problem Solving
- Accounts Payable/Receivable
- Change management

EXPERIENCE

Service Manager/Shop Supervisor/CSC

Chattanooga, TN

Ryder Truck Rental/ Sep 2003 to Current

During my time in rental, revenue increased 40%. This is attributable to my drive to ensure all available equipment was clean and mechanically sound. Ensuring that the customers that I rented to were completely satisfied with their experience was my top goal. Due to this work ethic I was asked to take a newly created customer service representative job with the shop. I was responsible for bringing a new insight and order to the workflow for the shop. Previously a 'lead tech' handled the job assignments and scheduling. The facilities vehicle maintenance index and profitability attained a higher level over three years that I was in that position. Due to these efforts I was promoted to the position of shop supervisor. There along the customer service representative set up new communication protocols with our customers. The required maintenance indexes and profitability continued at a high level for the next three years and I assumed a service manager position with responsibilities of 4 outlying locations. I achieved high reviews for bringing these shops to a higher profitability and achieving new high marks for the maintenance indexes from their previous history.

After devoting six years to Smyrna's City Council, Mayor Arthur Max Bacon was first elected to his post in 1985.

Since then, the first phase of the redevelopment of Smyrna's downtown district was completed in August 1991. The Municipal Services building was completed and occupied in September 1996; the Public Safety/Jail facility was completed and occupied in September 1997. Also completed is the new Fire Station headquarters on Atlanta Road, a replica of the old Smyrna train depot, which is the home of the Smyrna Museum, and the restored Aunt Fanny's Cabin, which serves as the City's welcome center. The Smyrna Market Village, the final phase of the 15-year master plan, opened with great success in October of 2002. In 2006, after a two-year process, approximately 70 percent of apartments properties identified as suitable for redevelopment in Smyrna are have/and will be complete. Between 2006 and 2009 redevelopment of the former privately owned Brawner psychiatric facility and grounds took place under his guidance. Now known as Taylor-Brawner Park and Brawner Hall, this example of quality public passive park space and facility rehabilitation and adaptive reuse as office and event space is also listed on the National Register of Historic Places, along with Taylor-Brawner House. Plans for the property at the intersection of Atlanta Road and Spring/Concord for the site of the former shopping center known as Jonquil Plaza began construction in early 2016 with coordinated tenant development with the former Belmont Hills Shopping Center site at the intersection of Atlanta Road and Windy Hill Road. Now known as The Village at Belmont / The Shops at Belmont and Alta at Belmont, the new mixed-use development is expected to be substantially complete in September of 2016. The Belmont area redevelopment, under Bacon's leadership, includes the addition of the new Smyrna Elementary School (a Cobb County Schools facility) along with other connectivity and transportation improvements along the corridor. Most recently under Bacon's leadership, the Smyrna Vision Process - a 10-year citizen-driven plan and process for community growth and cultural development - began and has moved into the implementation phase. Notable advancements in the process include the creation of the Smyrna Arts & Cultural Council which is independent of municipal government and remarkable gains in community involvement in the public schools within the Smyrna area.

Bacon is involved in a number of civic organizations, including the Cobb Chamber of Commerce Smyrna Division where he served as President from 1993-94, Chairman of the Downtown Smyrna Development Authority, the Smyrna Business Association, Cobb County Chamber of Commerce Board of Directors, past member of the Atlanta Regional Commission, Cobb-Marietta Coliseum and Exhibit Hall Authority, Cobb Water Authority, member of Smyrna American Legion Post 160, Campbell High School Advisory Council and former member of Argyle Elementary School Advisory Council. He is also a member of the Georgia Municipal Association, is a past president of the Cobb Municipal Association and was the recipient of the 1993 Georgia Municipal Association Community Leadership Award. The Marietta Daily Journal selected him as the Cobb County 1997 Citizen of the Year in January 1998. Through his leadership, the Urban Land Institute has recognized Smyrna nationally for its downtown revitalization and in 1997 received the National Award for Excellence of a Public Project. Mayor Bacon received the 1999 Martin Luther King, Jr. award by Campbell High School. He also received the 2001 Citizen of the year award from the Smyrna Area Council of the Cobb County Chamber of Commerce. In 2004, Mayor Bacon received the Liberty Bell award from the Cobb County Bar Association for community service that has strengthened freedom. The Smyrna Rotary Club awarded Mayor Bacon with the title of Smyrna's Outstanding Citizen in December 2006. In 2015, Mayor Bacon was awarded the 2015 Dr. Martin Luther King Humanitarian Award by Campbell High School for his tireless efforts on behalf of the students and the school in step with redevelopment of Smyrna - making strides for continuous improvement and helping Campbell High to be a great place for all students to excel.

Bacon is retired from the U.S. Postal Service after 40 years, serving as Postmaster of the Smyrna Post Office at the time of retirement.

Mayor Bacon was born [REDACTED] 1948 at Marietta Hospital (now Promina Kennestone) in Marietta, Georgia to Arthur T. Bacon and Dorothy Moseley Bacon. He attended Smyrna Elementary School and graduated from Campbell High School in 1966. He attended DeKalb College and Chattahoochee Technical College and served in the Georgia Air National Guard from 1966 to 1970. He has two children [REDACTED] and four grandchildren [REDACTED]. Bacon has two sisters, [REDACTED] of Smyrna, [REDACTED] of Smyrna and one brother, [REDACTED] of Kennesaw. Bacon is a life-long resident of Smyrna, a member of First United Methodist Church and currently resides at [REDACTED]

University of North Carolina at Pembroke

Bachelor of Science, Biology and Chemistry, May 2000, GPA 3.2

EXPERIENCE

Clarity Clinical Laboratory

Toxicologist, November 2017 – Present

- Interpret and review toxicology data from LC-MS/MS *in vivo* human patients
- Verify LC-MS/MS data is correct
- Verify proficiency test data from CAP samples
- Verify LC-MS/MS instrumentation running properly

eLab Solutions

Toxicologist, July 2017 – January 2018

- Interpret and review toxicology data from LC-MS/MS *in vivo* human patients
- Certify data is correct and release it to the provider
- Maintain logbooks of data interpretation and certification
- Assist certification team with any issues that may arise from interpretation and certification of data
- Verify proficiency test data from CAP samples

University of West Georgia

Instructor, August 2016 – May 2017

- Teach non-major biology
- Teach Anatomy and Physiology I Lab
- Teach Anatomy and Physiology II Lab

Georgia Pain and Spine Care Lab

Clinical Lab Supervisor, August 2013 – February 2016

- Performs drug testing and interpretation using Biolis 24i and LC-MS/MS *in vivo* human patients
- Performs all proficiency testing for CAP and API for COLA and CLIA surveys
- Supervises lab personnel and provides training/evaluations
- Performs certification of Pain Management loads from Biolis and LC
- Performed QA/QC
- Assists the management team with implementing budgets to help the business
- Assists with implementing and validating new methods for testing drugs
- HIPPA/OSHA/Compliance Officer Duties
- GMP and GLP standards were always followed

Quest Diagnostics

Forensic Toxicologist/Chemist III, September 2010 – May 2014

- Compliance training performed for Employer solutions for CLIA certification
- Perform specimen testing for drug analytes on Olympus 5400 *in vivo* human patients
- Perform extraction of drugs to be analyzed on LC/MS and/or GC/MS
- Perform validations of analytes on Olympus 5400 (yearly and as needed)
- Performs certification of Pain Management loads from LC and GC
- Performs interpretation of results on LC/MS/MS and GC/MS/MS *in vivo* human patients
- Assists interpreters and certifiers with problems they encounter
- Assisted with hormone testing in clinical chemistry *in vivo* human patients

Georgia Perimeter College

Instructor, August 2009 – May 2010

- Taught non-majors chemistry and labs
- Taught majors chemistry labs
- Maintained all documentation associated with lab safety and maintenance of instrumentation
- Maintained all documentation for grading purposes using Microsoft office suite

Georgia State University, Atlanta, GA

Graduate Assistant, June 2008 – May 2010

- Performed protein study using NMR (400, 600, 800 and 900 MHz) *in vitro* study
- Performed drug separation studies using Capillary Electrophoresis
- Performed cancer drug studies using gel electrophoresis and LC/MS/MS *in vitro* study

- Performed color marking studies using UV/VIS spectrometry
- Assisted professor in lecture for general chemistry lab
- Assisted with Chematix

UNC Chapel Hill School of Nursing, Chapel Hill, NC

Research Assistant, June 2003 – February 2004

- Assisted with the development of testing procedures for the research being done
- Developed a more thorough way to analyze data being received from patients
- Monitored research participants while they slept
- Assisted with scoring the psychological test administered to the participants
- Assisted with data collection of the research that was being conducted

US Army, FT Bragg, NC

Parachute Rigger/NBC NCO/Publications Clerk, August 1990 – November 1995

- Squad leader for 8 person squad
- Packed personnel parachutes for airborne operations
- Packed cargo parachutes for heavy drop operations
- Performed airborne operations
- In charge of \$2 million of NBC equipment
- Assisted with personnel actions and mailroom at the company level

VOLUNTEER OPPORTUNITIES

Alpha Plasma, Fayetteville, NC, October 1994 – June 1996

- Assisted with packaging and shipping of plasma samples
- Assisted phlebotomists with patient care
- Gained understanding of the processing of plasma samples in the clinic

Anderson Creek Volunteer Fire Department, Spring Lake, NC June 1991 – June 1995

- Performed EMT duties on EMS calls
- Assisted with training of volunteer firefighters
- Trained citizens of the city to do first aid and CPR

November 18, 2019

Governor Brian Kemp
206 Washington Street
111 State Capital
Atlanta, Ga 30334

Dear Governor Kemp,

It was a pleasure and honor to meet and speak with you while staying at Southwind Plantation last month. I found you to be inspiring with your genuineness and sincerity. It gives me hope for our future with so much going awry in our current political landscape and dysfunctional government.

After much deliberation and introspection, I have decided to ask for you to appoint me to the vacancy of Senator Isakson's seat and represent the great state of Georgia in the United States Senate. I would be doing so at a great personal and professional cost as an owner of a roofing and construction company in Cumming, (ProActive Exteriors) founded in 2007, as well as husband and father of two young children ages six and eight.

I am involved with nearly aspect of the day to day operations of my company, and, I understand that would cease to be for the time I am serving the citizens of Georgia, and this country. I draw inspiration from our founding fathers who walked away from their working farms and businesses to serve as representatives of the people, then, when their terms were done, return to their homes and resume their lives.

I understand I would be subjecting my family to unwanted attention, and, myself to public scrutiny and ire from those who ideologically oppose our Judeo-Christian values. But, I am not one to back down from confrontation pertaining to my convictions. My father, a retired Lt Colonel after serving 30

years in the Army, taught me at a young age, that if you don't stand up for your values, then, you have no values at all.

I see an extremely diversified field of applications submitted thus far. Many people with grander life achievements, political backgrounds, and accomplishments within their communities. I am but a simple businessman from humble roots growing up in Peachtree City, Georgia. While most of my classmates went on to learn at colleges and universities, I went to work learning business in the real world. Getting my hands dirty along the way working my way up the corporate ladder to positions normally reserved for those with MBA's, etc. I was getting paid while learning my craft and tools needed to succeed in business.

I left that corporate world shortly before the worst economic downturn our country had seen in the modern era. And, I thrived in the construction industry in a time when many were going under. ProActive Exteriors has done (double digit) millions of dollars of business in home restorations since then. My company is highly respected in the communities I serve.

I know this is not a resume in any traditional sense. I'm not a traditional guy. But, being a business owner for more than a decade, I've had no reason to create a resume. While I would give the utmost respect to my senior senators in the upper house, I would by no means intimidated, or, cow down in anyone's presence. I am my own man who would vote based on my core beliefs and convictions. I consider myself an effective orator and strong ability to motivate and inspire with passion and energy.

We are facing an ideological Armageddon in our nation right now. It would be an honor to be a foot soldier in this crusade. I feel this appointment's qualifications can be found with the following stances and beliefs that I have. I believe they represent the majority of my fellow Georgians. I'll name a handful but, would be more than happy to discuss any and/or all views I have on a given issue.

- Right to life
- Second Amendment rights and protections
- Smaller government
- Strong military
- Constitutionalist Judges confirmed
- Securing the US border and immigration reform

I appreciate you taking these applications and have every confidence you will select the best person for the job that represent the values I know you and I both share. Since this is a publicly posted document, I will not list references or ancient work history here, but, certainly would upon request and provide names of locally respected religious and business leaders, along with other small business owners and notables in our community.

God Bless you and God Bless America!

Seth Peters
